WELCOME ADDRESS

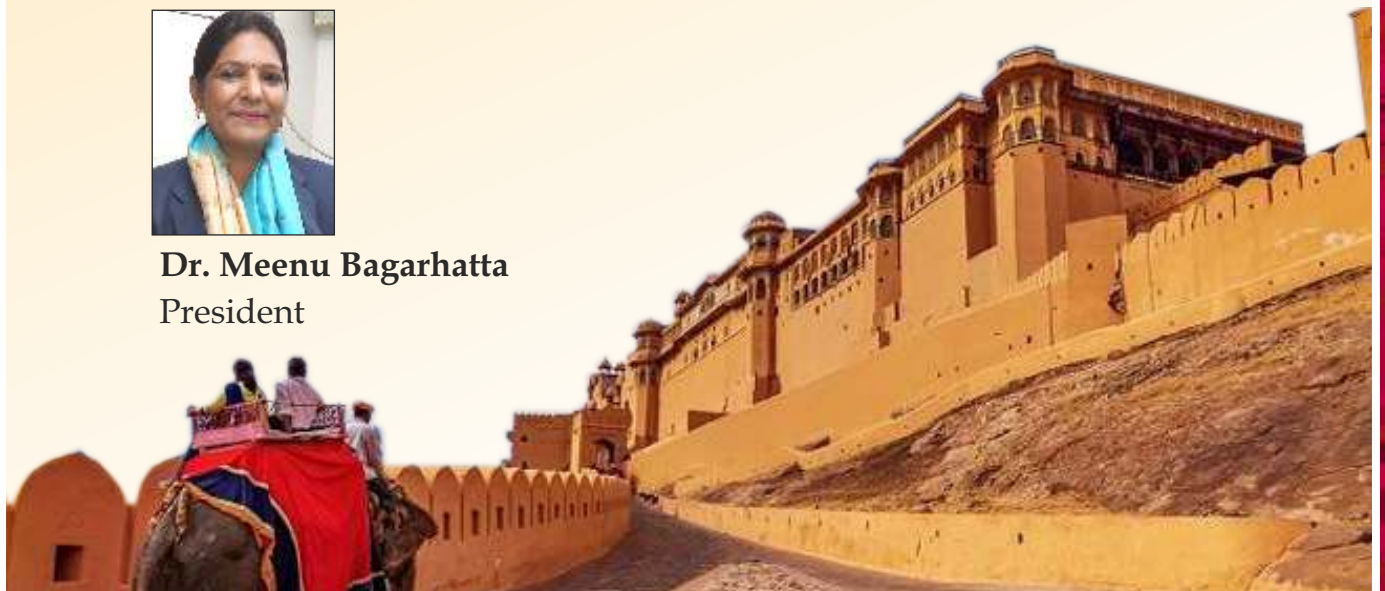

Dear Colleagues,

Welcome to the grand announcement of the Annual Conference of the Rajasthan Chapter of IRIA which is going to be held on 18th and 19th of December on Virtual Platform. We had held the midterm CME in October in an offline format and were hoping for a similar exercise this time but due to apprehensions of increasing Covid cases, it was decided, in the wider interest, to go ahead with the virtual conference this time. We understand that the spirit of the personal touch and contact is missing in virtual sessions but at the same time it ensures wider participation of people from the whole of Rajasthan. It's our endeavour to bring new talent to this forum along with the veterans so that the conference gets a flavour of experience with exuberance. With these thoughts, I invite you all to this academic feast to enjoy every moment of the conference.

This Annual Conference is a theme meeting on "Current update on Whole Body Imaging." The scientific Programme is formulated keeping the needs of all practicing radiologists and will include lectures pertaining to Diagnostic as well as Interventional Radiology. Breast workshop on Biopsy techniques on Day 1 followed by Residents Oral paper and poster presentations with attractive prizes will encourage residents to showcase their research to a wider audience.
